

CAR AIR PURIFIER

4-Stage Purification

EN CAR AIR PURIFIER AND IONIZER

The car air purifier monitors air quality in real time, activating automatically when air pollution is detected. It has three filters that effectively purify the air from harmful dust and odors. The ionization function cleans air from allergens.

Product features:

Maximum efficiency: 40m³/h

Recommended surface area: 3-5m²

Operating modes: 2

Noise: <42 dB

Negative ions release: 5 million

Release of anions: yes

Automatic mode: yes

Filter life: 3000 hours

Power supply: 5W DC; car charger

HEPA filter: H11

Removal rate: 98%

Operation: power, air quality LED, filter status LED

Filter: preliminary, HEPA, carbon, ionizer
